More connections. More recall.

100 target characters / 20 visual clusters / Simplified Chinese

Hanzi Connections Atlas

Version 2 builds on the original 30-character pilot. Explore reusable components, compare sound families, then recall characters in a mixed order.

青 qīng **Qing**	马 mǎ **Ma**	包 bāo **Bao**
水 shuǐ **Water**	木 mù **Wood**	人 rén **Person**
口 kǒu **Mouth**	日 rì **Sun & time**	走 zǒu **Movement**

This is a reference and retrieval atlas, not a frequency ranking or a guarantee of mastery. Learn a few new targets at a time, and spend more time recalling than rereading.

A clue is not a rule

READ THIS FIRST / Know which kind of relationship you are looking at.

SOUND FAMILY

A repeated phonetic component suggests a sound connection. Modern initials, finals and tones can differ; learn the actual reading.

SEMANTIC COMPONENT

A recurring component can suggest a broad meaning area. It does not supply a complete definition or guarantee the same meaning in every character.

STRUCTURE OR STUDY THEME

A visible shape relation is not automatically etymology. A study theme groups useful words by topic and does not imply shared components.

Four passes, not one long stare

LOOK: what repeats, and what changes?

SAY: retrieve the syllable and tone, then a useful word.

LINK: connect the written form to a meaning or context.

RECALL: close the page; retrieve sound, meaning and word.

Example words may contain supporting characters that are not among the 100 targets. Readings select the senses shown; some targets have other readings. Unmarked syllables are neutral tone.

Recognise component forms

COMPONENT LEGEND / Spoken component names below are names, not character readings.

sān diǎn shuǐ

water side-form

component name

dān rén páng

person side-form

component name

tí shǒu páng

hand side-form

component name

shù xīn páng

heart side-form

component name

yán zì páng

simplified speech form

component name

cǎo zì tóu

grass top-form

component name

bǎo gài tóu

roof-shaped component

component name

zǒu zhī páng

movement component

component name

A component can change shape when it joins a character. Not every visible part is a standalone word, and the dictionary indexing radical is not the same thing as every component.

Choose your route

CONTENTS / The original six maps are retained; fourteen new clusters extend the atlas.

01 Qing 5
phonetic family

02 Ma 6
phonetic family

03 Fang 7
phonetic family

04 Bao 8
phonetic family

05 Water 9
semantic cluster

06 Wood 10
structure + meaning

07 Person 11
semantic cluster

08 Hand 12
semantic cluster

09 Mouth 13
semantic cluster

10 Speech 14
semantic cluster

11 Heart 15
semantic cluster

12 Sun & time 16
structure + meaning

13 Body 17
study theme

14 Roof 18
structure + meaning

15 Movement 19
semantic cluster

16 Numbers 20
study theme

17 Size/place 21
study theme

18 Family 22
study theme

19 Learning 23
study theme

20 Food/plants 24
study theme

Map pages are followed by cross-family views, visual contrasts, a 100-target mixed retrieval check, and an answer index. A page number is a location, not a prescribed learning order.

Qing connections

PHONETIC FAMILY / Listen for qing; tone is not fixed.

清

qīng

clear / pure

Water component + Qing

清水 qīngshuǐ

clear water

晴

qíng

sunny

Sun component + Qing

晴天 qíngtiān

sunny day

青

qīng

blue / green

情

qíng

feeling

Heart component + Qing

心情 xīnqíng

mood

请

qǐng

please / ask

Speech component + Qing

请问 qǐngwèn

excuse me; may I ask

青草 qīngcǎo

green grass

The same Qing component gives a useful sound link. The side component helps distinguish water, weather, feeling and speech.

Ma connections

PHONETIC FAMILY / First tone, third tone and neutral tone appear here.

妈
mā
mother
Woman component + Ma
妈妈 māma
mum / mom

吗
ma
question particle
Mouth component + Ma
好吗? hǎo ma?
is it OK?

马
mǎ
horse

码
mǎ
code / number
Stone component + Ma
号码 hàomǎ
number

蚂
mǎ
ant (in this word)
Insect component + Ma
蚂蚁 mǎyǐ
ant

马上 mǎshàng
right away

The question particle ma has neutral tone. In māma, only the second syllable is neutral.
The stone clue in “code” is not a direct definition.

Fang connections

PHONETIC FAMILY / The final -ang stays; tones vary.

Semantic clues can be historical and broad. The mound component in “guard against” is not a modern picture of prevention.

Bao connections

PHONETIC FAMILY / Watch b / p as well as the tone.

抱
bào
hold / hug
Hand component + Bao
拥抱 yōngbào
embrace / hug

饱
bǎo
full after eating
Food component + Bao
吃饱 chībǎo
eat until full

包
bāo
bag / wrap

泡
pào
bubble / soak
Water component + Bao
泡茶 pàochá
make tea by steeping

跑
pǎo
run
Foot component + Bao
跑步 pǎobù
run / jog

书包 shūbāo
schoolbag

This family includes b- and p-. Here pào means soak or bubble, and pǎo means run; both characters have other readings in other uses.

Water connections

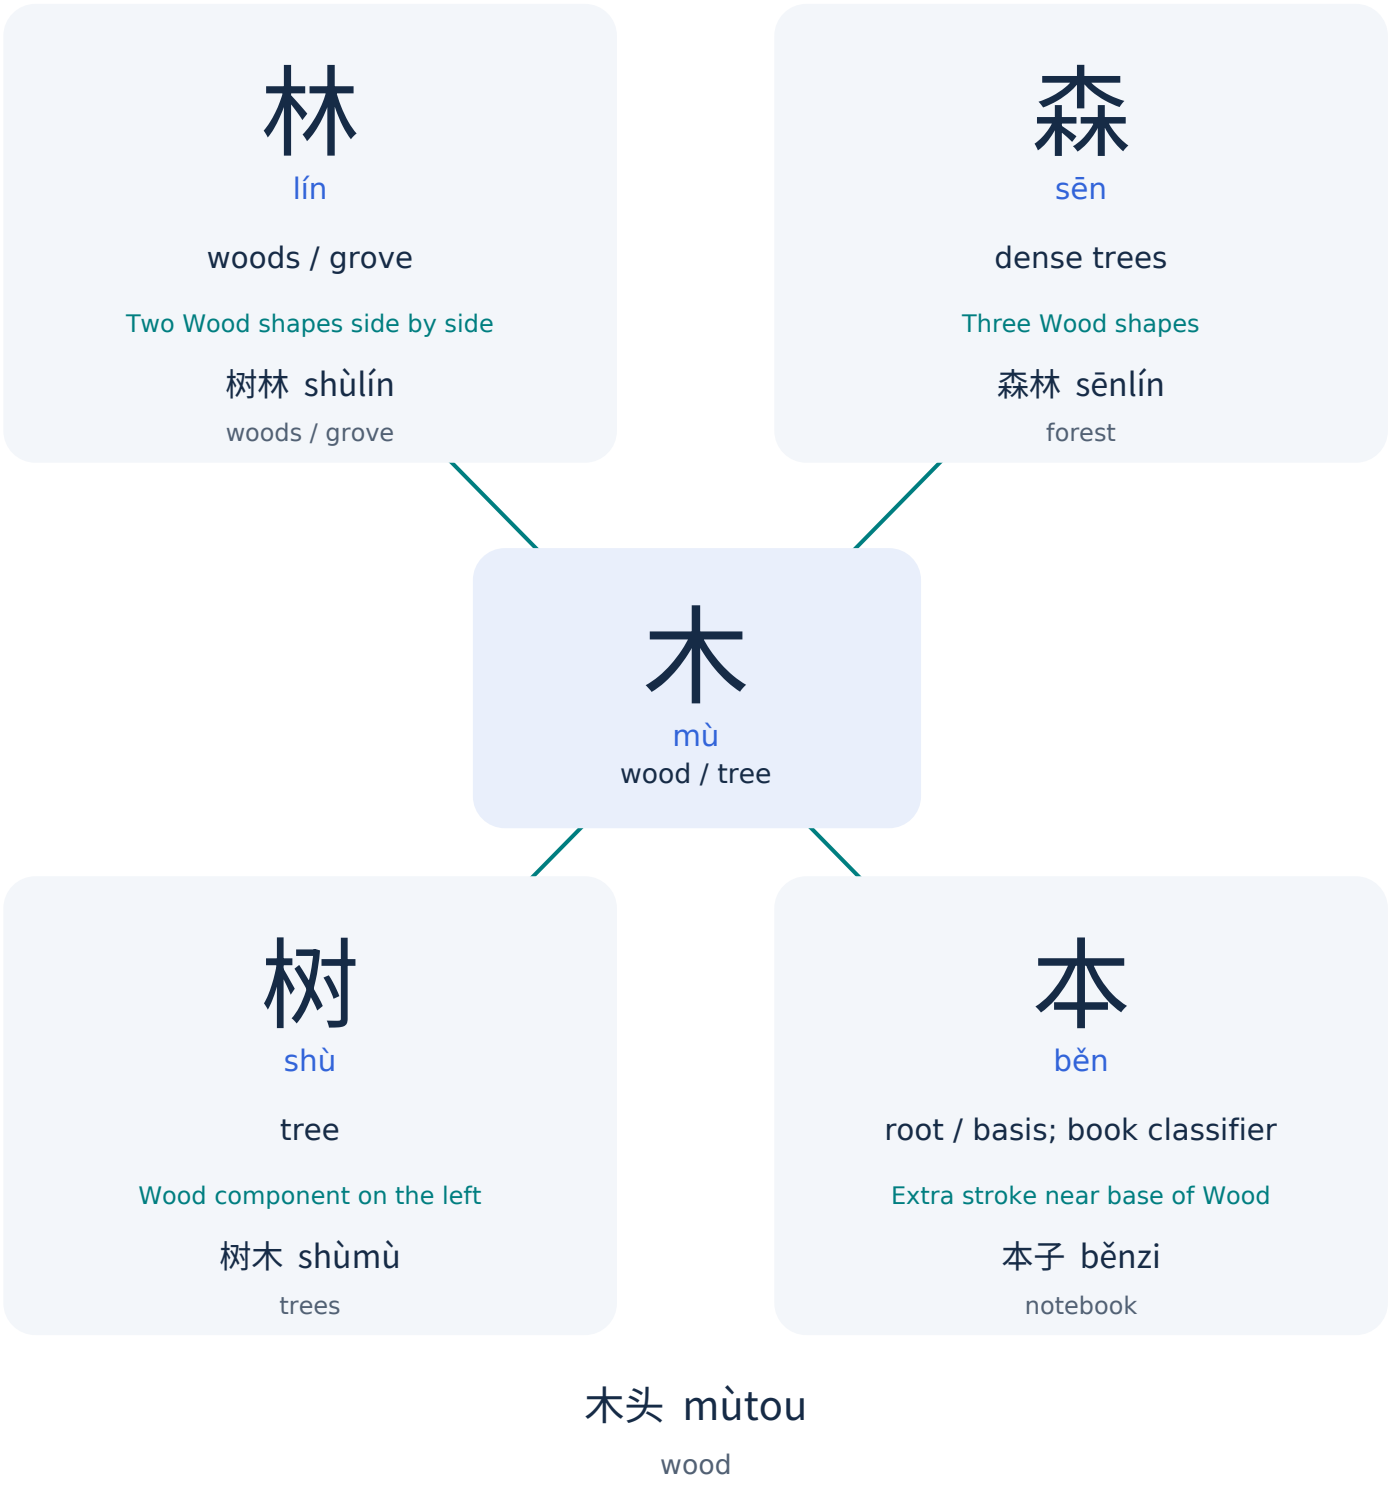

SEMANTIC CLUSTER / Related meanings, NOT a shared sound family.

The left-side water form recurs in four targets. Their different pronunciations show why a semantic cluster is not a phonetic family.

Wood connections

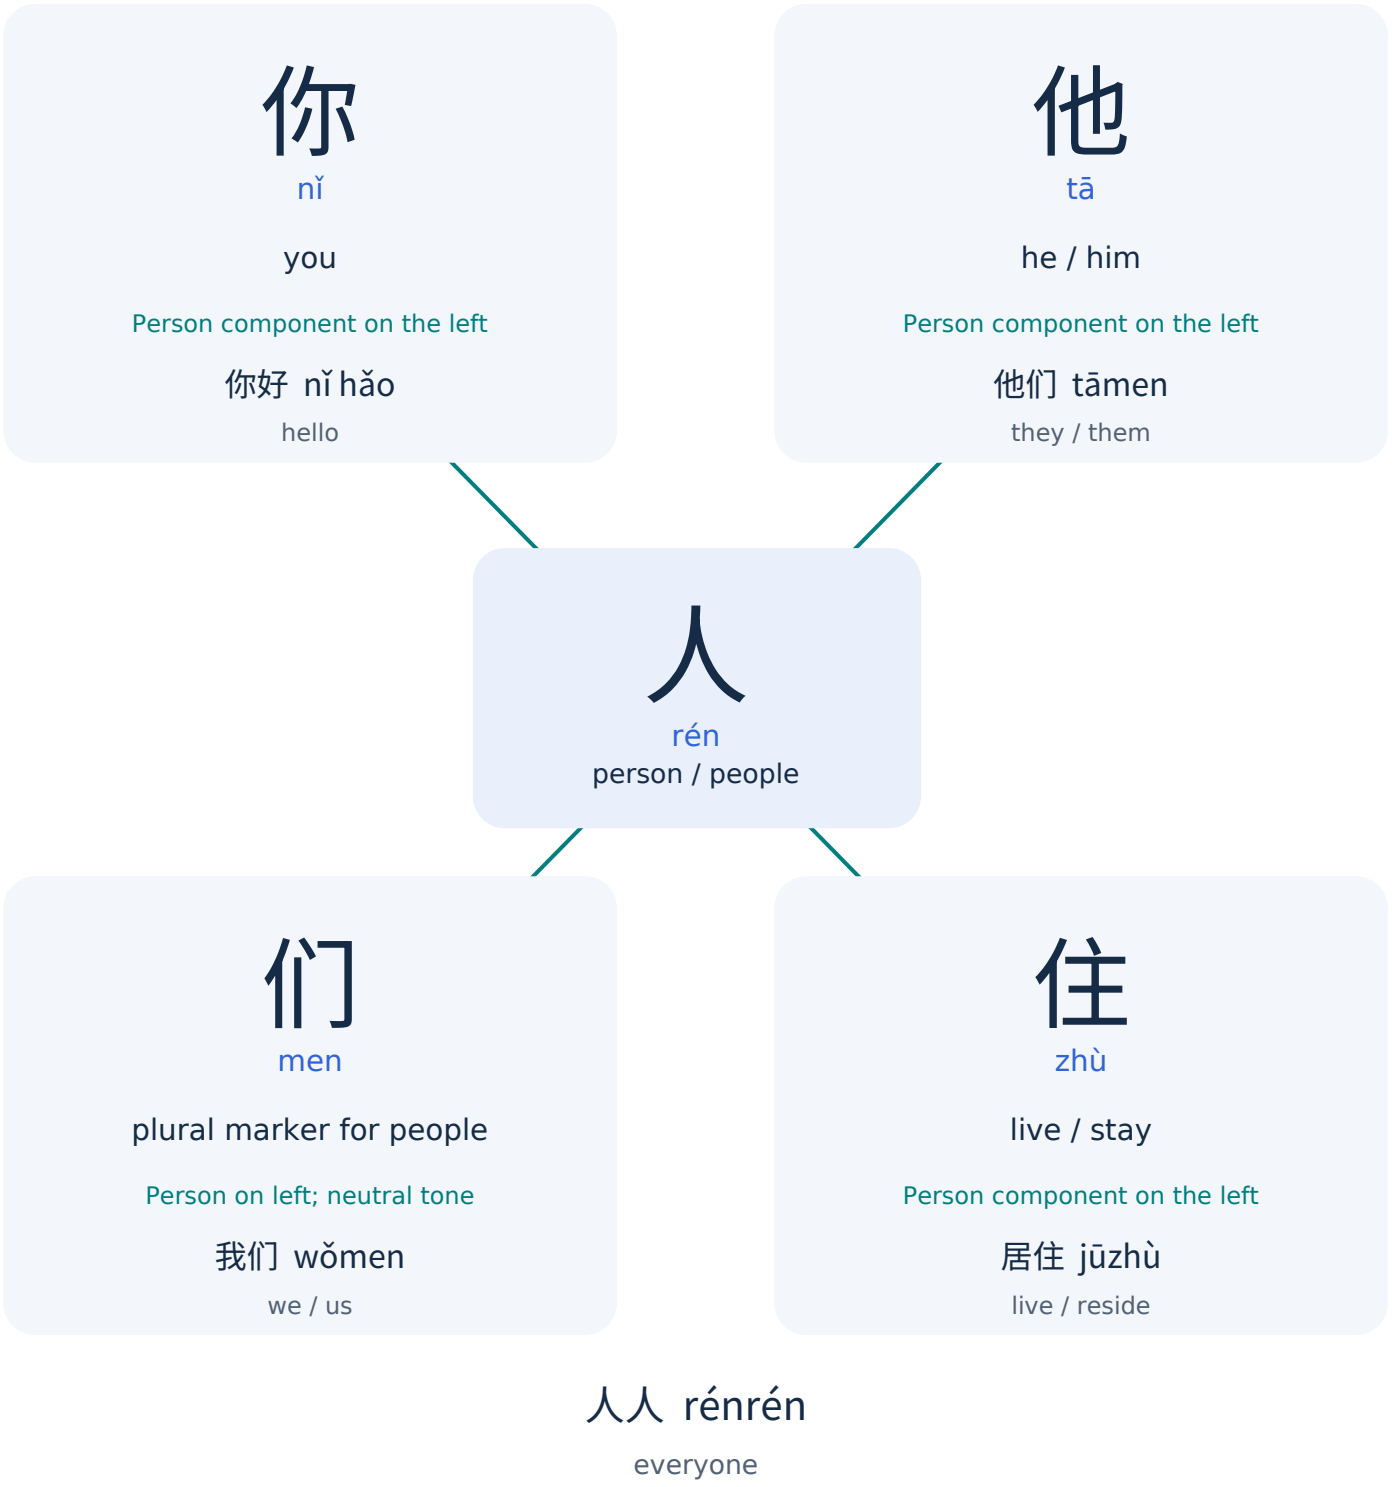

STRUCTURE + MEANING / See reuse; do not assume a sound pattern.

Two and three Wood shapes are easy structural links. For “root / basis”, notice the short stroke near the base; learn its book-measure use separately.

Person connections

SEMANTIC CLUSTER / Person changes shape on the left; sounds vary.

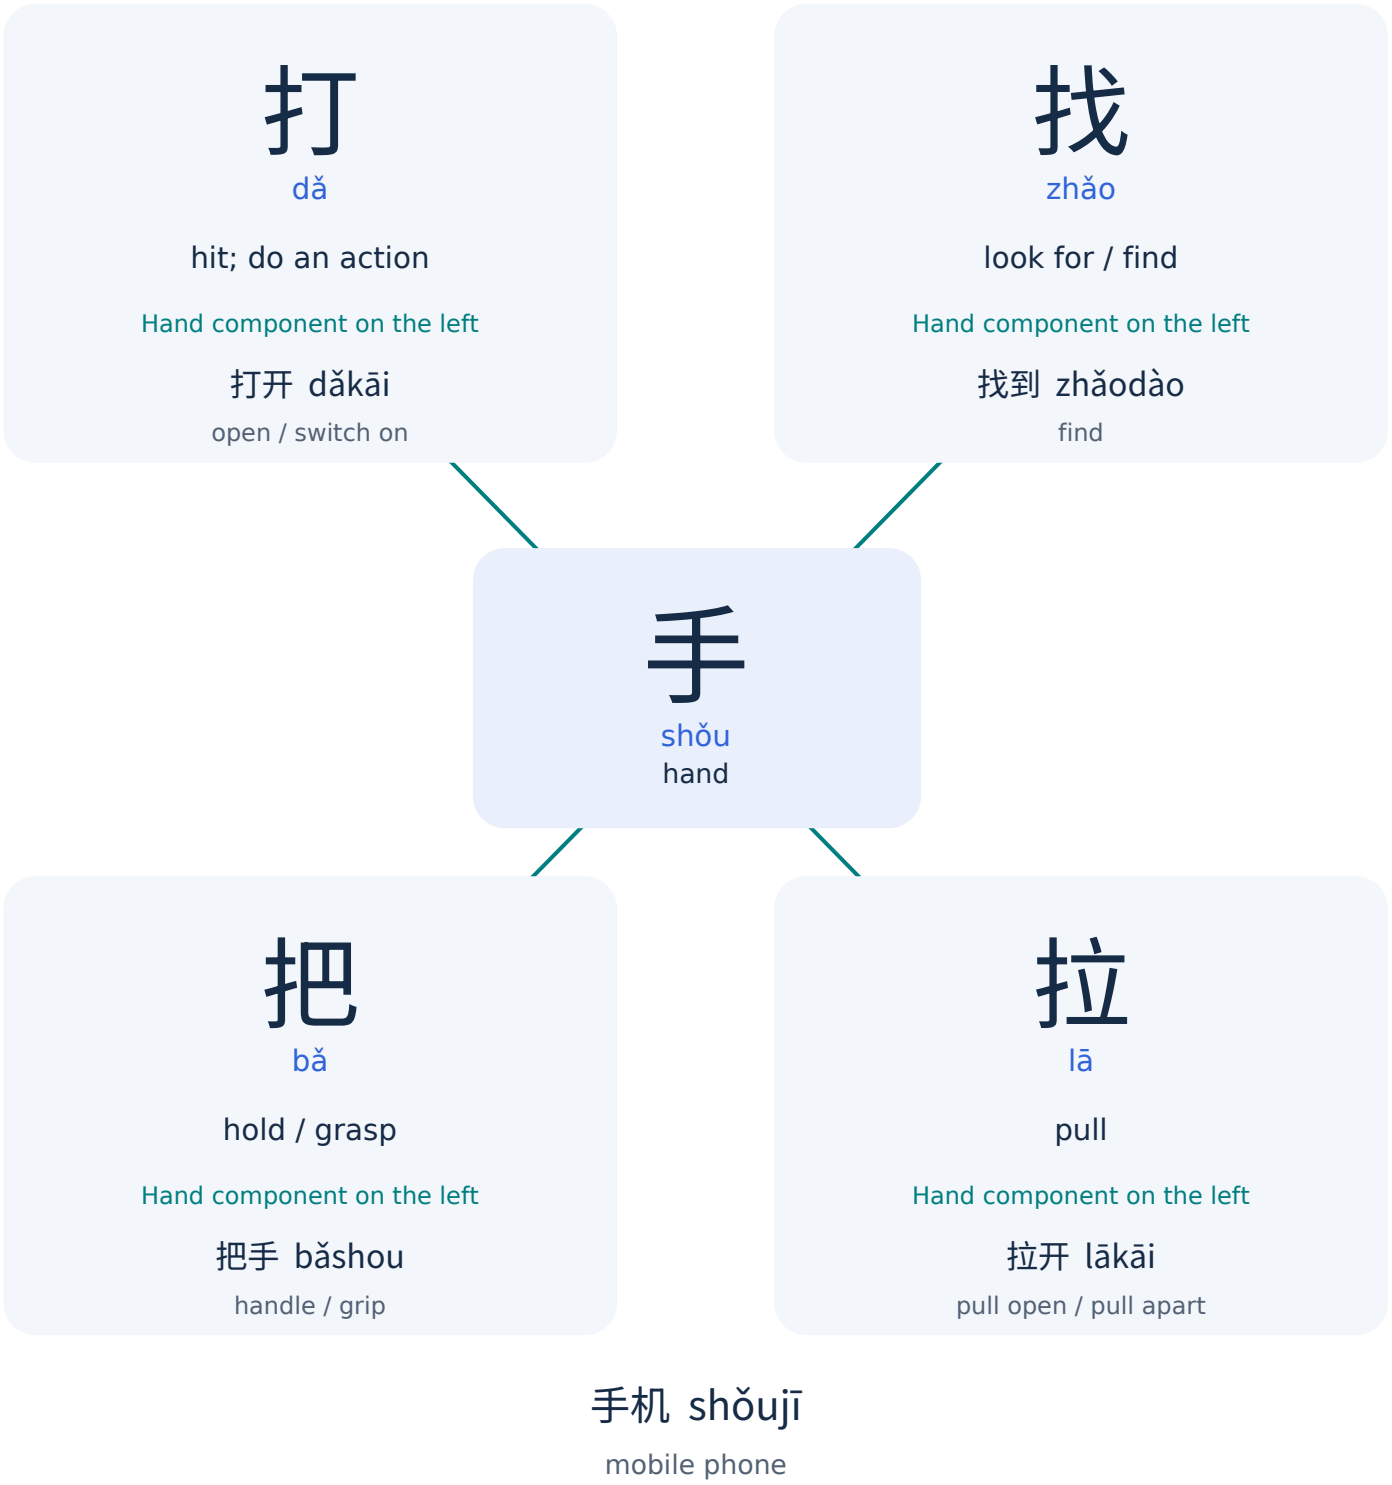

人人 rénrén

everyone

Person appears alone or as a narrow left component. All four compound characters contain that component, but their sounds differ. The plural marker is for pronouns and people, not a general plural ending for objects.

Hand connections

SEMANTIC CLUSTER / Hand is a meaning clue, not a shared sound.

手机 shǒujī

mobile phone

The narrow Hand component links actions such as hitting, grasping and pulling. It is a meaning clue, not a sound rule. The verb meaning of a character can be broader than its component suggests.

Mouth connections

SEMANTIC CLUSTER / Mouth links eating, speaking and hearing here.

人口 rénkǒu

population

The four compound characters contain Mouth on the left. Their meanings concern eating, drinking or communication. In simplified Listen, this is a present-day shape observation, not an explanation of the older character form.

Speech connections

SEMANTIC CLUSTER / All share Speech on the left, not one sound.

说话 shuōhuà

speak / talk

Each character has the simplified Speech component on the left. Their meanings concern speaking, words, language or reading. Do not pronounce the component label as the character: these five readings are different.

Heart connections

SEMANTIC CLUSTER / Heart appears below or changes shape on the left.

想
xiǎng
think / want / miss
Heart component at the bottom
想念 xiǎngniàn
miss someone

忘
wàng
forget
Heart component at the bottom
忘记 wàngjì
forget

心
xīn
heart / mind

忙
máng
busy
Heart component on the left
帮忙 bāngmáng
help / lend a hand

怕
pà
fear / be afraid
Heart component on the left
害怕 hàipà
be afraid

小心 xiǎoxīn
be careful

Heart is written in full below Think and Forget, and as a narrow left component in Busy and Afraid. These are meaning-related connections, not a single pronunciation family.

Sun & time connections

STRUCTURE + MEANING / Spot Sun in all five; their sounds are different.

早
zǎo
early / morning
Sun component at the top
早上 zǎoshang
morning

明
míng
bright; next (day)
Sun on the left; Moon on right
明天 míngtiān
tomorrow

日
rì
sun / day

昨
zuó
yesterday
Sun component on the left
昨天 zuótiān
yesterday

晚
wǎn
evening / late
Sun component on the left
晚上 wǎnshang
evening / night

日子 rìzi
day / date

All five contain the Sun shape. Their useful meanings concern daylight, brightness or time. Bright shows Sun beside Moon; treat this as a description of the modern shape rather than a complete historical explanation.

Body connections

STUDY THEME / Useful body words, not a shared-component family.

体
tǐ
body / form
Person on left; Root on right
体育 tǐyù
sport / physical education

头
tóu
head
Simplified Head; thematic link
头发 tóufa
hair (on the head)

身
shēn
body

眼
yǎn
eye
Eye component on the left
眼睛 yǎnjing
eye / eyes

耳
ěr
ear
Ear as a full character
耳朵 ěrduo
ear / ears

身体 shēntǐ
body / health

This is a vocabulary theme, not a common-component family. Body, Head, Eye and Ear are useful labels to learn together. The Eye component in Eye and the Person component in Body provide separate shape connections.

Roof connections

STRUCTURE + MEANING / All have Roof on top; not all mean home.

安
ān
safe / peaceful
Roof above the Woman component
安全 ānquán
safe / safety

字
zì
written character
Roof above the Child component
汉字 hànzì
Chinese character

家
jiā
home / family

室
shì
room
Roof component at the top
教室 jiàoshì
classroom

客
kè
guest / customer
Roof component at the top
客人 kèrén
guest / customer

回家 huíjiā
go home

Each character has the same Roof component at the top, but its whole meaning is not always about a building. Character and Safe visibly combine Roof with Child and Woman respectively; these are shape descriptions, not origin stories.

Movement connections

SEMANTIC CLUSTER / Four use Walking; Walk is a separate shape.

Enter, Pass, Near and Far all contain the Walking component, which wraps around the lower left. Walk is a separate standalone character, not the source of that component. Together they make a useful movement-and-distance cluster.

Numbers connections

STUDY THEME / Learn a counting set, not a shared sound family.

第一 dìyī

first

One, Two and Three have one, two and three horizontal strokes. Four and Five must be learned as separate shapes. The month examples use number plus Month; First shows One without its usual spoken tone changes.

Size/place connections

STUDY THEME / Contrast meanings; there is no common component.

小

xiǎo

small / little

Contrast the whole shape with Big

小孩 xiǎohái

child

上

shàng

up / above

Short stroke above the baseline

上面 shàngmiàn

above / on top

大

dà

big / large

大人 dàren

adult

下

xià

down / below

Short stroke below the top line

下面 xiàmiàn

below / underneath

中

zhōng

middle / centre

Vertical stroke through the centre

中间 zhōngjiān

middle / between

Big and Small form a meaning contrast; Above and Below form another. Middle adds a useful position word. These are study partners, not a shared-component or shared-sound family.

Family connections

STUDY THEME / A people theme; Woman and Child recur in Good.

子

zǐ

child / son

Child as a full character

子女 zǐnǚ

children / sons and daughters

好

hǎo

good / well

Woman at left; Child at right

好人 hǎorén

good person

女

nǚ

female / woman

爸

bà

father / dad

Father component at the top

爸爸 bàba

dad / father

男

nán

male / man

Field above the Strength component

男人 nánrén

man

女儿 nǚ'ér

daughter

This is a people-and-family theme. Good visibly contains Woman and Child; Dad has Father on top; Male has Field above Strength. These observations describe modern shapes without turning them into gendered origin stories.

Learning connections

STUDY THEME / Useful study words, not a structural family.

生
shēng
life / grow; student suffix
Whole character; theme link only
学生 xuésheng
student

书
shū
book / writing
Simplified Book; theme link only
书店 shūdiàn
bookshop / bookstore

学
xué
learn / study

文
wén
writing / language
Writing as a full character
中文 zhōngwén
Chinese language

名
míng
name
Evening above the Mouth component
名字 míngzi
name

学习 xuéxí
learn / study

These characters are grouped by study vocabulary, not shared structure. Learn has Child below, but its top is not the Roof component. The target reading shēng becomes neutral sheng in the selected word xuésheng.

Food/plants connections

STUDY THEME / Three share Grass; the food links are thematic.

饭
fàn
cooked rice / meal
Food component on the left
米饭 mǐfàn
cooked rice

菜
cài
vegetable / dish
Grass component at the top
蔬菜 shūcài
vegetables

米
mǐ
rice (uncooked)

茶
chá
tea
Grass component at the top
红茶 hóngchá
black tea

花
huā
flower
Grass component at the top
花园 huāyuán
garden

大米 dàmǐ
rice (uncooked)

Vegetable, Tea and Flower have Grass on top. Rice is a separate full character, while Meal has Food on the left. The links among all five are thematic; only the three Grass characters share that component.

Follow the meaning clues

CROSS-FAMILY VIEW / A different route through familiar shapes.

WATER

清	泡	河	海	洗	酒
qīng	pào	hé	hǎi	xǐ	jiǔ
clear	bubble	river	sea	wash	alcohol

Different sound components can sit beside the same water clue. Similar meaning areas do not imply the same syllable.

SPEECH

请	访
qǐng	fǎng
please	visit

A request and a visit can both involve speech. The same component can connect characters from different sound families.

BODY AND ACTION

情	抱	跑
qíng	bào	pǎo
feeling	hold	run

Heart, hand and foot are three different components. This line is a study theme, not a single component family.

Find bridges between maps

CROSS-FAMILY VIEW / Reconnect new targets with the original pilot.

PERSON AND BODY

人	你	住	体
rén	nǐ	zhù	tǐ
person	you	live	body

The person side-form also appears in the body/form character. The body map itself remains a topic group, not a single component family.

HEART AND FEELING

心	情	想	忙	怕
xīn	qíng	xiǎng	máng	pà
heart	feeling	think	busy	fear

Heart can stand alone, sit below, or change shape on the left. These targets do not all share one sound component.

FOOD AS A THEME

饭	饱	米	菜	茶
fàn	bǎo	mǐ	cài	chá
cooked rice	full after eating	rice (uncooked)	vegetable	tea

The first two use the food component. Rice, vegetables and tea connect by topic instead, so this line is not a shared-component family.

Listen across the families

SOUND VIEW / Compare full syllables and tones, not only a shared written component.

QING

青	清	晴	情	请
qīng	qīng	qíng	qíng	qǐng
blue	clear	sunny	feeling	please

MA

马	妈	吗	码	蚂
mǎ	mā	ma	mǎ	mǎ
horse	mother	question particle	code	ant (in this word)

FANG

方	房	放	防	访
fāng	fáng	fàng	fáng	fǎng
direction	house	put	guard against	visit

BAO

包	抱	饱	泡	跑
bāo	bào	bǎo	pào	pǎo
bag	hold	full after eating	bubble	run

Here ma with no tone mark is neutral tone. The Bao family also changes b- to p-. Treat both tone and initial consonant as part of the answer.

Words create another network

CONTEXT VIEW / A character is not always a word, and a word is not a literal sum.

马上

mǎshàng

right away

The horse character appears in an everyday time expression. Learn the expression as a unit.

水果

shuǐguǒ

fruit

Water is visible, but the whole word means fruit. Do not translate compounds one character at a time.

心情

xīnqíng

mood

An example word gives a natural context for remembering the feeling character.

树林

shùlín

woods / grove

Two targets can meet in a single useful word, giving you another retrieval route.

See the difference

CONTRAST VIEW / Change one detail, then retrieve the whole character.

清
qīng
clear / pure

晴
qíng
sunny

Water versus sun

Same written right side; different left side, tone and meaning.

抱
bào
hold / hug

跑
pǎo
run

Hand versus foot

Watch the left-side component and b- versus p-.

木
mù
wood / tree

本
běn
root / basis; book classifier

One extra stroke

The short stroke near the base distinguishes these forms.

Small shape, big difference

CONTRAST VIEW / Modern visual observations, not invented origin stories.

rì

sun / day

kǒu

mouth

An inner horizontal

The sun/day character has an inner horizontal. The mouth character is an open-centred box.

rén

person / people

dà

big / large

An extra horizontal

Compare these current written shapes. Do not turn this visual aid into a historical explanation.

shàng

up / above

xià

down / below

Above versus below

Use the long horizontal as a visual reference, then notice where the short stroke sits.

Mixed recall 1 / 5

PRACTICE / Pinyin is intentionally hidden. Say the reading, meaning and one example word.

S = sound + tone M = meaning W = a useful word

1 手 S ___ M ___ W ___	2 蚂 S ___ M ___ W ___	3 你 S ___ M ___ W ___	4 口 S ___ M ___ W ___
5 方 S ___ M ___ W ___	6 米 S ___ M ___ W ___	7 树 S ___ M ___ W ___	8 进 S ___ M ___ W ___
9 叫 S ___ M ___ W ___	10 把 S ___ M ___ W ___	11 找 S ___ M ___ W ___	12 喝 S ___ M ___ W ___
13 体 S ___ M ___ W ___	14 心 S ___ M ___ W ___	15 爸 S ___ M ___ W ___	16 子 S ___ M ___ W ___
17 住 S ___ M ___ W ___	18 茶 S ___ M ___ W ___	19 话 S ___ M ___ W ___	20 日 S ___ M ___ W ___

Mark what you retrieved before checking. An incorrect tone counts as a sound miss even if you remembered the meaning.

Mixed recall 2 / 5

PRACTICE / Pinyin is intentionally hidden. Say the reading, meaning and one example word.

S = sound + tone M = meaning W = a useful word

21
忘
S ___ M ___ W ___

22
清
S ___ M ___ W ___

23
饱
S ___ M ___ W ___

24
生
S ___ M ___ W ___

25
水
S ___ M ___ W ___

26
词
S ___ M ___ W ___

27
包
S ___ M ___ W ___

28
耳
S ___ M ___ W ___

29
安
S ___ M ___ W ___

30
吃
S ___ M ___ W ___

31
男
S ___ M ___ W ___

32
晚
S ___ M ___ W ___

33
近
S ___ M ___ W ___

34
放
S ___ M ___ W ___

35
早
S ___ M ___ W ___

36
上
S ___ M ___ W ___

37
怕
S ___ M ___ W ___

38
洗
S ___ M ___ W ___

39
头
S ___ M ___ W ___

40
情
S ___ M ___ W ___

Mark what you retrieved before checking. An incorrect tone counts as a sound miss even if you remembered the meaning.

Mixed recall 3 / 5

PRACTICE / Pinyin is intentionally hidden. Say the reading, meaning and one example word.

S = sound + tone M = meaning W = a useful word

41 下 S ___ M ___ W ___	42 们 S ___ M ___ W ___	43 大 S ___ M ___ W ___	44 码 S ___ M ___ W ___
45 晴 S ___ M ___ W ___	46 书 S ___ M ___ W ___	47 想 S ___ M ___ W ___	48 马 S ___ M ___ W ___
49 林 S ___ M ___ W ___	50 读 S ___ M ___ W ___	51 中 S ___ M ___ W ___	52 二 S ___ M ___ W ___
53 房 S ___ M ___ W ___	54 忙 S ___ M ___ W ___	55 室 S ___ M ___ W ___	56 河 S ___ M ___ W ___
57 菜 S ___ M ___ W ___	58 他 S ___ M ___ W ___	59 过 S ___ M ___ W ___	60 饭 S ___ M ___ W ___

Mark what you retrieved before checking. An incorrect tone counts as a sound miss even if you remembered the meaning.

Mixed recall 4 / 5

PRACTICE / Pinyin is intentionally hidden. Say the reading, meaning and one example word.

S = sound + tone M = meaning W = a useful word

61 名 S ___ M ___ W ___

62 眼 S ___ M ___ W ___

63 请 S ___ M ___ W ___

64 昨 S ___ M ___ W ___

65 四 S ___ M ___ W ___

66 走 S ___ M ___ W ___

67 字 S ___ M ___ W ___

68 花 S ___ M ___ W ___

69 身 S ___ M ___ W ___

70 听 S ___ M ___ W ___

71 泡 S ___ M ___ W ___

72 语 S ___ M ___ W ___

73 三 S ___ M ___ W ___

74 学 S ___ M ___ W ___

75 明 S ___ M ___ W ___

76 一 S ___ M ___ W ___

77 森 S ___ M ___ W ___

78 访 S ___ M ___ W ___

79 家 S ___ M ___ W ___

80 跑 S ___ M ___ W ___

Mark what you retrieved before checking. An incorrect tone counts as a sound miss even if you remembered the meaning.

Mixed recall 5 / 5

PRACTICE / Pinyin is intentionally hidden. Say the reading, meaning and one example word.

S = sound + tone M = meaning W = a useful word

81 女 S ___ M ___ W ___	82 防 S ___ M ___ W ___	83 五 S ___ M ___ W ___	84 小 S ___ M ___ W ___
85 拉 S ___ M ___ W ___	86 酒 S ___ M ___ W ___	87 木 S ___ M ___ W ___	88 吗 S ___ M ___ W ___

97 打 S ___ M ___ W ___	98 远 S ___ M ___ W ___	99 说 S ___ M ___ W ___	100 好 S ___ M ___ W ___

Mark what you retrieved before checking. An incorrect tone counts as a sound miss even if you remembered the meaning.

Answer index 1 / 4

Answers follow the mixed-recall numbers. The map page gives the component or theme connection.

01. 手 shǒu — 12
hand

02. 蚂 mǎ — 6
ant (in this word)

03. 你 nǐ — 11
you

04. 口 kǒu — 13
mouth

05. 方 fāng — 7
direction / square

06. 米 mǐ — 24
rice (uncooked)

07. 树 shù — 10
tree

08. 进 jìn — 19
enter / advance

09. 叫 jiào — 13
call / be called

10. 把 bǎ — 12
hold / grasp

11. 找 zhǎo — 12
look for / find

12. 喝 hē — 13
drink

13. 体 tǐ — 17
body / form

14. 心 xīn — 15
heart / mind

15. 爸 bà — 22
father / dad

16. 子 zǐ — 22
child / son

17. 住 zhù — 11
live / stay

18. 茶 chá — 24
tea

19. 话 huà — 14
words / speech

20. 日 rì — 16
sun / day

21. 忘 wàng — 15
forget

22. 清 qīng — 5
clear / pure

23. 饱 bǎo — 8
full after eating

24. 生 shēng — 23
life / grow; student suffix

25. 水 shuǐ — 9
water

Answer index 2 / 4

Answers follow the mixed-recall numbers. The map page gives the component or theme connection.

26. 词 cí — 14
word / term

27. 包 bāo — 8
bag / wrap

28. 耳 ěr — 17
ear

29. 安 ān — 18
safe / peaceful

30. 吃 chī — 13
eat

31. 男 nán — 22
male / man

32. 晚 wǎn — 16
evening / late

33. 近 jìn — 19
near

34. 放 fàng — 7
put / release

35. 早 zǎo — 16
early / morning

36. 上 shàng — 21
up / above

37. 怕 pà — 15
fear / be afraid

38. 洗 xǐ — 9
wash

39. 头 tóu — 17
head

40. 情 qíng — 5
feeling

41. 下 xià — 21
down / below

42. 们 men — 11
plural marker for people

43. 大 dà — 21
big / large

44. 码 mǎ — 6
code / number

45. 晴 qíng — 5
sunny

46. 书 shū — 23
book / writing

47. 想 xiǎng — 15
think / want / miss

48. 马 mǎ — 6
horse

49. 林 lín — 10
woods / grove

50. 读 dú — 14
read

Answer index 3 / 4

Answers follow the mixed-recall numbers. The map page gives the component or theme connection.

51. 中 zhōng — middle / centre — 21

52. 二 èr — two — 20

53. 房 fáng — house / room — 7

54. 忙 máng — busy — 15

55. 室 shì — room — 18

56. 河 hé — river — 9

57. 菜 cài — vegetable / dish — 24

58. 他 tā — he / him — 11

59. 过 guò — pass / cross — 19

60. 饭 fàn — cooked rice / meal — 24

61. 名 míng — name — 23

62. 眼 yǎn — eye — 17

63. 请 qǐng — please / ask — 5

64. 昨 zuó — yesterday — 16

65. 四 sì — four — 20

66. 走 zǒu — walk / leave — 19

67. 字 zì — written character — 18

68. 花 huā — flower — 24

69. 身 shēn — body — 17

70. 听 tīng — listen / hear — 13

71. 泡 pào — bubble / soak — 8

72. 语 yǔ — language — 14

73. 三 sān — three — 20

74. 学 xué — learn / study — 23

75. 明 míng — bright; next (day) — 16

Answer index 4 / 4

Answers follow the mixed-recall numbers. The map page gives the component or theme connection.

76. 一 yī — 20
one

77. 森 sēn — 10
dense trees

78. 访 fǎng — 7
visit / interview

79. 家 jiā — 18
home / family

80. 跑 pǎo — 8
run

81. 女 nǚ — 22
female / woman

82. 防 fáng — 7
guard against

83. 五 wǔ — 20
five

84. 小 xiǎo — 21
small / little

85. 拉 lā — 12
pull

86. 酒 jiǔ — 9
alcohol / wine

87. 木 mù — 10
wood / tree

88. 吗 ma — 6
question particle

89. 抱 bào — 8
hold / hug

90. 客 kè — 18
guest / customer

91. 青 qīng — 5
blue / green

92. 文 wén — 23
writing / language

93. 本 běn — 10
root / basis; book classifier

far / distant

99. 说 shuō — 14
say / speak

100. 好 hǎo — 22
good / well

Use, review, refine

SCOPE AND REFERENCE NOTES / Original learning material, version 2.

Exactly 100 targets

Twenty maps of five distinct target characters. The original 30 targets remain.
Supporting characters in component labels and example words are not additional targets.

What the connections mean

Blue highlights a sound relationship; teal highlights a semantic component or meaning relation. Amber and dotted links mark study themes or visual attention. These are not claims that every relation is historical etymology.

Selected readings

The examples select standard Mandarin senses. Characters may have additional pronunciations. Pinyin retains dictionary tone marks; spoken third-tone sandhi does not rewrite the dictionary form. Some words have accepted full-tone variants; one common pronunciation is shown.

A practical routine

Study one small cluster, then retrieve it without hints. Revisit after a delay and mix it with older targets. Track sound, meaning and word recall separately. No component count or page count guarantees mastery.

Reference sources

Character structures and readings: www.dong-chinese.com/wiki
Dictionary cross-checks: www.zdic.net and www.collinsdictionary.com
Mandarin reference dictionary: dict.concised.moe.edu.tw
Sources support language checking; no worksheet art is reproduced.

Format and reuse

Original maps, wording and page design. Embedded Noto Sans SC and DejaVu fonts use open font licences permitting document embedding. This static PDF can be saved and annotated on your devices; it contains no scripts or tracking.
